Dear Del & Beth,

We wish to thank you for contributing to The Boulder School. Just as the work of the Apostles was made possible by the donations of a few believers, our endeavors to act upon the light of truth that we have been given are made possible by the contributions of a few. We appreciate your participation in these efforts, and will soon be sending you a detailed outline of the plans and activities of the School.

We invite you to visit us, and would be very interested in any suggestions or comments you might have regarding the School and its progress. Thank you again for participating in these efforts to foster the fifth epochal revelation by sharing the great gift that we have been given.

Sincerely,

Carl Pickering
