Chicago, Illinois 60614

Dear Scott;

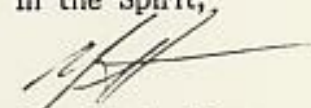

Enclosed you will find a copy of the proposed use of the concentric circles symbol that I discussed with you yesterday. The final format will be similar to that of the enclosed copy of last year's brochure.

If a decision on this matter is possible without a formal meeting of the Trustees of the Foundation, we would appreciate your efforts to obtain a consensus on the matter within a week or two. If this is impossible, we will print the Prospectus without the circles and will ask that the Foundation consider our request with a view toward next year's brochure.

I'm sorry that this request comes to you with such time constraints, but we had not considered this option until very recently. We will certainly understand if such a quick decision is not possible.

Thanks for your time and effort. Let me know as soon as you can how you will proceed.

In the Spirit,

Merritt C. Horn
