

THE BOULDER SCHOOL
1622 - 18th Street
Boulder, Colorado 80302
(303) 443-8154

Dear Friends:

The age we are living in is certainly one of the most challenging, exciting, and rewarding ages ever witnessed on this planet. The dawning of a new and glorious revelation of God to man is upon us. This new revelation, unlike the major revelations of the past, is not a living revelation — the job of making it come alive is left up to us. We each have the opportunity, in our own special and unique way, to serve, and by serving, to give life to God's latest revelation.

For the past three years, the School here in Boulder has been providing an educational and experiential arena for its students to study The URANTIA Book and then to put this knowledge to work in their daily lives. Our first class graduates in June this year and the second class will graduate in December.

It has been so wonderful to watch these people grow in their love for God and for each other. Together we have discovered that daily interaction amongst those who are dedicating themselves to the furtherance of this fifth epochal revelation has strong, positive effects on all our lives and on the community around us. The challenge then becomes: "How can I best serve? How can I mobilize all of my talents to 1) help bring about the coming kingdom, and 2) serve my fellows? How can I build a bridge between God's latest revelation and the world as it is?" The answers to these questions must be personal and individual, but the road leading to the discovery must be social and fraternal. One of the purposes of The Boulder School is to aid you in this discovery process.

The curriculum at The Boulder School must constantly be evolving. New forms must ever be tried and tested, allowing experiential group wisdom to play its part in the progression of a living institution. The changes in this year's curriculum reflect a growing desire for wholeness — unification of the divergent aspects of personality under the guidance of LOVE.

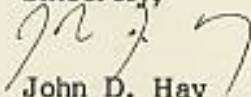

We would welcome and encourage your participation at whatever level suits you best. **Our fall classes begin on September 10, 1984**, and we would love to have you join us as fellow students. If you are unable to attend the School at this time, we would appreciate your passing on this brochure to someone you think might be interested. Additional brochures are available upon request.

Again, let me remind you that The Boulder School is a non-profit, educational institution. Any contribution you may wish to donate would be greatly appreciated, and is fully tax-deductable.

If we can be of any service to you, or if you have any questions, please don't hesitate to call.

May our heavenly Father's love fill your life.

Sincerely,

John D. Hay
Administrative Director
