Mr. John D. Hay
c/o The Boulder School
1622 - 18th Street
Boulder, CO 80302

Dear John:

I'm pleased we had an opportunity to talk during the Asilomar Conference. I hope we can touch bases on URANTIA Book activities from time to time -- and that the next time you're in California we can spend some time together.

I want you to know that Clyde was simply delighted with the generous contribution you made to the Concordex Project recently. It really gave him a boost in morale. It is an awesome job, but when completed will be of great and lasting benefit to the movement. He and I both thank you for moving that day a bit closer via your contribution.

Enclosed is a modest contribution for the Boulder School. Your dedication to that enterprise is vitally important to the Movement, and while the amount I'm able to send isn't great, I surely want to be counted as among the staunch supporters and advocates of the School.

Incidentally, if the female voice on the radio interview tape Don Guimond sent was Carol, she's dynamite to listen to as well as to see! Please congratulate her for me.

Must sign off in haste. Keep in touch.

Yours for accelerating the
coming of the Father's Kingdom,
