Dear Jeff,

It was good talking with you at the Summer Seminars at Lake Forest. I'm glad to hear you and your family are doing well.

I checked my records and realized I did not pay you the \$3000. I am enclosing a check for \$3300 to include the interest that you requested.

I would really appreciate it if you would send me copies of the notes, teaching aids, and hand outs that you generated as part of your work at the Boulder School. I would like it for my files on the Boulder School.

As you may know, the General Council recently charged the Publications Committee to publish a new publication called "The Study Group Herald". This looks like a good opportunity for us to begin dissemination of some of these materials that you have generated to help study The URANTIA Book. After I have a chance to review the material you sent me, I will be able to push the project, that you and I talked about at Lake Forest, from my end as a member of the Executive Committee.

Looking forward to hearing from you.

Peace & Blessings.

Sincerely,

John D. Hay
