

Dear Sue & Jim,

Those giggles are due to our  
bumpy flight on last leg of our  
flight from Alaska to Hawaii! <sup>1/2 hour</sup>

The 12 days in Alaska are  
beyond adequate descriptions over  
Uxantia friends there are  
beautiful outdoor people who  
really are able to live a self-  
sufficient life. My great hosts  
the Turkey and Pat Hayes fed  
me moose meat, wild goat meat etc.  
all simply delicious! Turkey kills  
all wild game and they neatly  
package and freeze enough of this  
including fish and ducks to  
last all winter. You should see  
their freezers full of plump wild  
blueberries and other wild fruits  
besides all their meats.

We had at least 3 big meetings  
besides the Conference on Sunday  
when 27-30 came. Turkey and Pat

I'll have to tell you & pictures.

are the born leaders and their home is the Center. They cleverly put ads for the wanted meetings on the Sports page. You know that is where people would see it rather than the church page.

Tuckey is a Medical X-ray technician & we had the big conference Sunday at his Med Center. Pat is a nurse R.N. really a beautiful big-eyed girl. They have a darling 3 year old Tuckey.

I took a three day trip up to North Pole, Alaska, part Mc. Kinley Park & Fairbanks. Got Veris program on 3 key places the best is North Pole which has a storybook history. Covers all north Alaska, part of Russia, Canada over to Norway at times 50,000 watts day & night. Seldom do stations have 50,000 watts at night. Flew <sup>by</sup> bush pilot past arctic circle to Yukon. Plane only held 3 passengers

and the two lawyers who were  
representing Doyon, Inc. gave  
me the seat of honor by the  
pilot. I was scared but said  
nothing and finally enjoyed the  
whole trip looking down on  
hundreds of acres of tundra &  
over the Alaskan mountains.

3  
Doyon, buying all  
the land monopolized

The little airport was about  
14' square and had outdoor  
toilets only! At one little airport  
up there I met a darling  
girl who is the ticket manager  
who kept pressing me about  
the broadcasts until I finally  
mentioned the Wanted Book  
& she said she had read parts  
of it in New Orleans and had  
desperately wanted one ever  
since. She represents Air North.  
She will be our liaison person for  
Fairbanks Alaska. I begged Pat  
to mail one!

When Dan Christensen in  
Oregon heard about our Mini-  
Conference in Alaska he came  
clear up and then drove Pat  
and me to Fairbanks in her  
V. W. Great buy also.

I learned at those airports  
up north where the term I.C.B.M.  
originated and what it really  
means! ☺. Don't you have publish  
my research!

Everyone wants your agabontes  
I have at least 30 names +  
addresses for you! I have one  
girl coming down to visit me  
the first of December. They'll send  
money!

I sure miss Ja's marvelous  
coat everyday or I would have  
frozen - bless her heart + generosity!

Much love to you both. I have  
so much Alaskan love + good  
will they sent to you. Julia
