

Dear Jim and Pat,

I thought you might like to have some news from Hawaii for the Agondonter. All goes well here on the Big Island. We are turning many new people on to the book. So many people are ready here. We were thinking the other night that in terms of percentage wise these islands have the largest population of Urantia Book readers on the planet. We do a lot of teaching and have a very active study group both here in Hilo and on the other side of the Island at David's house.

My heart is still warmed by the memories of the Conference in L.A. last year. We are all looking forward to the next one. Tell anyone in the brotherhood who is coming to Hawaii to look us up.

In the Father's service,

Marian Parry Salmo
