

A Note from . . . Berkeley

May 29, 1974

Dear Julia:

Have been intending for some time to mail a check to Agondonter to help cover postage - so just thought I would write you a little note and send it to you. You can fill it in - if you will to either F. U. S. L. A. or Agondonter - whichever it should be. We do very much enjoy it!

Are many of you going to Chicago? I think we will have 8 or 10 - which isn't bad, considering the cost. We are all looking forward to seeing everyone again and think the arrangement in the college will be great.

Had a really beautiful weekend with Barbara Newsom and the Kansas City group the 11th of this month. Peter & France Sarfaty were there and I really do enjoy them too.

We are so lucky to have Paul as President - we all so very much enjoyed him and think he is just great! Was pleased about John Hales coming in to headquarters - he is badly needed - and I think will be perfect for the job.

How are things going for you? Am looking forward to having some time with you and by our going a day early perhaps it can work out this year. We always seem so rushed but think the extra day and all staying at the same place should make a lot of difference.

Peter showed us some of your work on the birds - it really is excellent work and should sell. Give everyone my love - and let me hear from you.

*Love,
Berkeley*
