I HAVE

Dear Richard,

I did not have your address for a while there and I'm not too sure that you have recieved all of the "Agondonters" we have done yet. Let me know which ones you have and I'll send you copies of the rest.

This issue here is the fifth since I took office last september. I wanted to put it out monthly, but time and funds have prohibited that and so it is now bi-monthly.

There are now about 300 copies going out, ten times more than when I took office.

Cost per issue is now running about \$50 per issue. I've taken in over \$260 in contributions this year and FUSLA will

come up with the rest. The fact that the Ag has been self sufficient has given me great joy. This enables me to send it

17¢ per subscriber

to many persons who havn't stopped to think that it takes money to print it.

I may have to make subscriptions mandatory in the future. But not yet! If paper and postage go up again, I don't know what I'll do.

I'd charge now.

Love and Light!

Jim McNeilly
