The Agondonter (sample enclosed) is no longer published on a regular basis. However, you may wish to acquire a copy of The URANTIA Book, which is the whole basis for this Agondonter newsletter. See description of the book on page 3. This brief description, by the way, hardly does the book justice. If you would like to examine the book, contact David & Rose Clearwaters, (address on page 8) and they will put you in touch with a reader in your area. (I know there are study groups in Portland and Corvallis, and there may be one in Salem.)
