

Le Septième Cercle

First Urantia Society Of Los Angeles,
P.O. Box 563,
Los Angeles CA 90053

Boisbriand, September 26th 1979.

Dear Editor,

Two years ago I was given by mr. Daniel St-Laurent of Fabreville Qué., a special issue of your Newsletter "Agondonter", and this is how I got acquainted with your Society.

I believe I have met Mrs Fenderson at a meeting at Mr. St-Laurent's house at about that time, and if she is still with you, I wish to send her my best regards.

I would like to inform you of our newly started study group called "The seventh Circle." We have study sessions every 1st and 3rd thursday of every month.

We have a list of nearly sixty readers now, or rather Urantia Book owners, and we want to make them all become constant readers with a little help!

Out of this group, we are seven older readers who are supporting this venture. We are not printing a beautiful Newsletter like yours but we sure can appreciate the good work you are producing, materially, and spiritually.

If it is possible, we would like to receive the "Agondonter" whenever it is published, and also, give our name and address to your readers, to help us to contact other groups, and possibly travellers who happen to come our way.

This summer, we had the pleasure of meeting with Francyl and Marven Gawryn from Berkeley at a meeting of the "Pre-Morontiens" in St-Eustache Qué. Such encounters will be highly profitable to readers of the Urantia Book and we want to welcome them to visit our group.

We are grateful for your help and assistance, and wish to be of help to you in some way sometime.

Sincerely,

GILLES CÔTÉ
