Dear Mr. Montgomery,

I am another who has "discovered" The Urantia Book, and I recently had the privilege of meeting Julia Fenderson in Corvallis. Another Urantian here in Oregon lent me a copy of the Winter 1975-76 Agondonter which has a reproduction of the illustration of The Master Universe. I should very greatly appreciate getting a copy of this Agondonter or of a print of this illustration.

I'd also appreciate receiving copies of your newsletters and, in fact, being placed on your mailing list. I'd like to receive lists of materials which are available, and any information about materials for study groups. There are four of us here in Salem who are sincerely and seriously interested in the study of the Urantia Book, and we feel we need some guidance.

I "discovered" the book quite by chance. A friend lent me a copy of the book which had been given to her by the son of a woman whose estate he was handling. My friend had only glared in a cursory way at the book and gave it to me to read since she knew I was a student of philosophy and religion. I have been "Reavouring" it. Her copy had no publishing company and no address, and I was able to obtain this from Woodland Chapel, a metaphysical church. I immediately wrote to The Urantia Society in Chicago, and when I didn't hear, I wrote again (on October 2 and 26), but I have never heard a word from headquarters. This seems reprehensible when a person makes a serious inquiry. I was grateful to Julia for information she sent to me, but I still need more on study materials. I hope you can help me.

I enclose a small check to cover the cost of sending me the map of the Master Universe. I'll look forward to hearing from you.

Sincerely,

Virginia Lee Hallock
