Dear Mr. Montgomery,

Your copies

of Agondolter came quite a while ago - I'm sure I would have enjoyed them very much - He was interested in Unantia for many years and started quite a few study groups - He gave his three children each a Unantia Book. His youngest son has read it many times and is now reading it to his eight year old son every night. I am enclosing his address - thought you might like to send the books.

7) Agondantir to him as Zuzell isn't
with us any more -

Thank you -

Billy Johnson -
