

URANTIA FOUNDATION

INTRA-OFFICE MEMORANDUM

FROM Martin W. Myers DATE January 2, 1974  
TO Trustees and Trustees Emeritus SUBJECT The Concentric-Circle Symbol

Lyman Erich has made a strong recommendation that we refer to the Three Concentric-Circle Symbol as only the "Concentric-Circle Symbol". He believes it is important not to specify the number of circles comprising the symbol inasmuch as it increases the opportunity for someone wishing to infringe upon our use of the symbol to use, say, Four Concentric-Circles.

Therefore, we should refer to the symbol as the "Concentric-Circle Symbol".

Martin W. Myers  
Trustee
