Dear 987 Alabama Street
San Francisco, Calif.
94110

I received the ten universe maps today in addition to your letter. Thank you for both.

Dear Jay: I was NOT scheduled to speak at an E.O.O.M. meeting. I WAS scheduled and did speak before a special Sunday service at by Dr. Grace Hooper Pettipher, D.D., of the Order of Melchizedek - not to be confused with the sect I was relieved to hear that you spoke to the Order of Melchizedek rather than the E.O.O. M. meeting. The confusion resulted from the similarity of names. There will be no misunderstanding, Tom, it was I who convinced Cecilith Landrum to host an emergency meeting of Uran-

tion. I did wonder at first why the names on the program were straight and I did notice the name difference but thought perhaps E.O.O.M. had made some modifications. My apologies. I used the E.O.O.M. literature that I had in our monthly conference involving 40 persons.

We were pleased to hear that you and the great majority of your group correctly assessed the E.O.O.M. with the help of Vern. Such crises are temporarily disconcerting but real growth usually results. The one person responsible for introducing these two elements into our midst.

Keep toiling, I'm sure you will always be found in the right vineyard. Sincerely,
himself more, I pray. He was our so-called leader. Now that our organization, which was in infancy, temporarily shattered, at least in the sense of unity, we all are most cautious and waiting to see the next step of our adventure in the Brotherhood of Man.

May I next state that this experience has broadened my outlook considerably, and now I understand. Truly I toil in the same vein as you do. I do it in a different life style and generation. Forgive me for any "thunderbolts" I may have thrown in my misunderstanding. Still, I did make some good points.

Again, I did NOT appear before or have any connection with E.O.O.M. I was rather noticeably ignored - much to my soul's delight. I agree totally with your appraisal of this group. I am saddened that they have "ripped off" part of The URANTIA Book. I would strongly urge legal action on your part.

Supportively yours in the service of Christ Michael,

Jay Newbern
