Mr. Philip Eversoul
1143 Mariposa St.
San Francisco, Calif. 94107

Dear Mr. Eversoul:

I have your recent letter and Miss Christensen's initial reply.

The Trustees of URANTIA Foundation appreciate the fact that you contacted us prior to any plans for publication of your book. URANTIA Foundation does hold the copyright to The URANTIA Book.

I am sorry that we cannot authorize you to use phrases from The URANTIA Book. The URANTIA teachings are to be disseminated in their pure form and are not to be combined with other philosophies or systems of thought.

Each individual's personal unification of science, philosophy and religion will require considerable time in our mortal careers and on the Mansion Worlds and beyond.

The unification of reality is an important theme in The URANTIA Book; a good deal of time is devoted to it. I am sure you have read and reread Paper 56, for example. It would seem that it would be difficult indeed for mortals to improve upon the concepts there expressed. No doubt you are gaining some satisfaction in the attempt, however.

I think that our realization of this unification will gradually accelerate as we progress Godward.

TAK:cew
