Mr. M. E. Stickney
210 Monte Diablo #301
San Mateo, California - 94401

Dear Mr. Stickney:

Thank you for your letter regarding The URANTIA Book. We are pleased to learn of your interest in this wonderful revelation.

The URANTIA Book is the sole publication of the URANTIA Foundation other than a few study materials based on the Book. We have enclosed a price list of textbooks which are helpful to advanced students of the URANTIA teachings. In addition, we have enclosed two pages descriptive of the purposes and activities of the URANTIA Foundation and the URANTIA Brotherhood, as well as two pamphlets concerning The URANTIA Book itself.

There is a good-sized Study Group in Berkeley which meets regularly to read and discuss The URANTIA Book. We are forwarding your request to the leader of this group so he should be contacting you shortly. We are certain you will find him most helpful.

If we can assist you further in any way, please let us know.

Sincerely,

(Miss) E. L. Christensen
Secretary

Gentlemen:

I would appreciate receiving
information on the following items:

Other Urantia Foundation publications
(I have the "Urantia Book").

Are there Urantia Societies in the
San Francisco Bay Area and, if so,
how may they be contacted.

Sincerely,

M. E. Stickney

card

Appears to be about 50 years of age. Mike found the Urantia Book in June in a bookstore. After reading ~~the~~ Paper 1, he "couldn't put it down." He has read over half the book in a straight-through fashion in about four months.

Though connected with scientific instruments as an occupation at some time, he now is working as a researcher in environmental impact which concerns (I think) an analysis of the hydrology, biology, and mineralogy as related to building. He describes his background as being in physical science. He graduated with a B.S. in chemistry and did not go on to graduate school.

Mike went to a Methodist church at least until until 12 when he discovered that the Old Testament God was unathful and did not want to have anything more to do with him. He married a Christian Scientist. He has studied ESP for many years which led him to Transcendental Meditation with its scientific findings two years ago and is a strong "believer in TM. (He has believed that two stated facts in the Book are false but is tending toward the belief that both are reconcilable after further research.)
