Dear Conrad:

During my recent visit to Montreal, you gave me copies of two pieces of literature that you said you wished to translate into French for use in your study group.

You can feel free to translate "Basic Concepts of The URANTIA Book" by Ruth Burton. This is not a copyrighted work so you are free to translate it; however, I think it would be well to make some mention of the fact that this is a URANTIA Brotherhood publication so that its origin is known. We ask that you do not use the three concentric circles and URANTIA marks.

The second piece of literature composed by David Kantor relating to the proposed Brotherhood School would seem to be a fine study group aid. We have no objection to the translation of this into French. Since it is the work of David Kantor, perhaps as a courtesy you will want to contact him to advise him of your desire to translate. I am sure he will have no objection. David's address is:

Mr. David Kantor
2584 Craig Court
Castro Valley, CA 94546

I'm sure you are all hard at work developing the study groups that now exist and perhaps hoping to begin the existence of others. It is work such as that done by you and our other friends in the Province of Quebec that will lead to the successful dissemination of the URANTIA teachings throughout the world.

Best wishes to everyone.

Sincerely,

Thomas A. Kendall
President
