TO: URANTIA Foundation  
SUBJECT: Registered Marks -- Possible Misuse

DATE: May 31, 1984

Attached is a picture of a painting displayed at the recent Paris meeting for students of The URANTIA Book sponsored by the Dessoubret brothers. Also a copy of the March 20 letter of Jacques Dupont.

I pass this on to you since it would seem to require your action.

Jacques refers to other matters in his letter and I would be happy to have your ideas concerning my proposed response.

Dear John,

Though the March 3 meeting was without spiritual interest, I noticed a thing to bring to your knowledge; but to go further, I had to wait for the photo I receive just now. This is the photo of a panel which was on the stage, whose picture looks like the three blue circles . I need not comment such doings. If you think to prosecute Bessoubret brothers, therefore to write to them, you may tell them that it is me who gave you this photo. Here included the photo.

Shifting to my obsession, that is, trying to understand the Urantia movement unfolding in its essence. I already spoke about that in my March 7 letter, allow me to add what follows about the Forum :

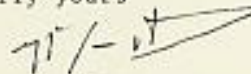

I suppose that forum members were for the 5th Revelation what were the twelve apostles and the seventy for the 4th revelation , particularly on account of the 20 years of training which is not a too long time at all for such a complex training. And the main forum members must have been foreseen a long time in advance as were certainly the first 6 Jesus' apostles.

The 4th revelation team had its deceivers  
The 5th revelation must follow the same way.  
But the deceivers are only the upper part of the iceberg, the part which is visible, exposed to all winds and storms, attracting curious and sly people, and bringing materials to medias.

I suppose that the majority of the forum members were the under water part of the iceberg - anonymous workers dedicated to the doing of the Father's will, following the way the revelators directed - working with the invisible Brotherhood (without knowing it )- those are the circle soldiers.  
May I spread those assumptions ? But we may spread only what is true

Another question: Do you know the year of the "on your own" ?  
Thank you .

Brotherly yours
