FIRST URANTIA SOCIETY OF LOS ANGELES

Dear Urantia Book reader,

On 30 October 1989 URANTIA Foundation terminated its license to the central organization of URANTIA Brotherhood (Executive Committee, General Council, and URANTIA Brotherhood Corporation) to use its registered trade and service marks (the word "URANTIA" and the three blue concentric circles). Application of this termination to constituent societies of URANTIA Brotherhood, each of which had signed a Licensing Agreement with the Foundation, seems to have been delayed a sufficient time for each to hold an informational meeting.

Since the word URANTIA was a part of the name of the international Brotherhood which the central organization represented, it could no longer call itself "URANTIA Brotherhood." In November the name was temporarily changed to "Fifth Epochal Fellowship."

As the situation now exists, First URANTIA Society of Los Angeles is a chartered component of Fifth Epochal Fellowship (FEF) and its members are members of FEF. URANTIA Foundation intends to cancel our license to use the name URANTIA and the concentric circles unless we join an organization called "URANTIA Brotherhood Association" in process of being organized by the Foundation. We have not received a copy of its Constitution.

The Governing Committee does not have the power to speak for the membership of FUSLA in this matter. It desires to resolve the issue as soon as possible. Only an enlightened membership, after hearing both sides of the issue, can speak for FUSLA.

In accordance with its Constitution, the Governing Committee of FUSLA has called a special meeting of its members for Sunday, January 14, 1990, at 2:00 p.m. in the Rotunda Room, Culver City Veterans Memorial, 4117 Overland Ave (at Culver Blvd.) in Culver City to provide as much information as possible. Invitation has been extended to representatives of the Foundation and the former Brotherhood to participate. It will be an open meeting to which all readers of The Urantia Book in the greater LA area are invited.

The format of the meeting will be presentations by the various representatives followed by a question and answer period in the spirit of love and sharing we have learned from The Urantia Book.

This is in addition to the regular meeting of FUSLA on the first Sunday (7th) in January at 3744 South Barrington Ave, West L.A., when Jeff Keys will speak on "Philosophy of Science."

For the Governing Committee

Lucille Davis, Pres.
