

Marian:

I am leaving Mr. Weiss' last report here for your perusal. You will note he wants some pins sent to him for a Mr. Traschler. We discuss this in our Executive Meeting and all present were against such action. When and if Mr. T. becomes well enough acquainted with the Urantia Book and its teachings and is so recommended by Mr. Weiss we could, some one suggested, suggest he become a member at large but for the present it was the concensus that you advise Mr. Weiss that there are restrictions on the passing out of pins, (since this is a Brotherhood undertaking.)

Christy

Dear Christy

A really nice hospitality awaited us in the well organized group of the provincial capital. A reporter came to their usual Saturday meeting and interviewed me and Miss Berkeley Elliott, after what he published the enclosed article in the Daily Oklahoman. A few hours later, the local bookseller had sold his 6 volume volume of the Urania Book and was eagerly awaiting the arrival of an order of 20 which he had sent you on August 10. In the mean time, the group brought him 10 volumes for the immediate demand - A half dozen telephone calls asked for the book and information within hours.

At noon, I spoke at the T.V. station and heard from an unknown customer in the bookshop that it had been excellent.

So you can expect more orders from here in the very near future. After tomorrow, I leave for California according to schedule, but there I am due to speak only to Urania groups without mass diffusion.

Concerning the German translation, I am already thinking, with eager interest, of your comments of quality which I will surely find upon my return to Paris. My young Canadian friends qualify themselves beyond expectations for our common work.

As to Mr. Burton, I think that he will keep awaiting attitudes for the time being concerning his Spanish translation. Give you will tell all that to Mr. Hales and Koudette.

Most sincerely

J. Weiss
